Volunteer Duties – just a reminder that fulfilling your duties is important to the functioning of camp and our offerings. Your three duties are a key obligation of being a cottage owner. If something comes up it is your responsibility to switch with someone or find a suitable replacement. When duties are missed committee chairs often have to step in to keep things going. Those folks are already giving generously of their time and really don't want to do another duty. A missed duty will result in a \$250 fine. Remember to dress suitably for your duties. Closed toed shoes and t-shirts are recommended for kitchen duties.

Decks, sheds, cottage construction – just a reminder to contact Howard Boress or Kurt Potthast to have Buildings & Grounds review and approve all project plans and timing of the project.

Cottages for bid – the Illinois District has two cottages up for bid. To be eligible to own a cottage you must have been a member of a Turner society for at least one year by the time the bids are opened on July 23rd at the next District Council meeting. Submit your bid in a sealed envelope with a check for your full bid amount, which must be the minimum bid of \$1500 or more. Include how many years you have been a member and to which Society you belong. Bids will be opened and read at the July 23rd District Council meeting.

Should you have a winning bid you may take possession immediately and you will have all the rights and privileges (pool tags, youth program, coupon book, etc.) for the remainder of the 2018 season. Cottage 26 – one room cottage in Mosquito Hollow Cottage 52 – one room cottage in Aurora Lane

Cottage Reclamation Opportunity – the District is also in possession of cottage 237, which is in severe disrepair. It is located just past the Sugar Bowl below the service road where the road bends. There is a picture of this cottage next to the definition of “Fixer Upper” in the dictionary. Since this cottage will require a significant upgrade investment The District is not asking for any bid. It is a larger footprint cottage and we are looking for someone who is handy and willing to bring it back to life. If you are interested please see Howard Boress & Kurt Potthast of Buildings & Grounds. The county building codes are very strict with what can and can’t be done and they’ll help you review the possibilities. Once you come up with a plan approved by Buildings & Grounds the Council will review and approve. As a side note, this is why the Camp Committee periodically does walk-throughs of camp and details repairs/work for cottages if they need it. This one got away from us and we’re trying to make sure cottages don’t get to the point of having to be torn down.

Communication – Jim Roth is leading a committee to develop ideas to improve communication at camp. If you are interested in serving on this committee please see Jim Roth or email him at jimroth1960@hotmail.com.
